

127.0.0.1:5500/index.html

The image shows a screenshot of a web browser displaying a book inventory management system. The background features a vibrant, colorful illustration of a magical castle interior with arches, a large orange curtain, and a small figure in the foreground. The title "Book Inventory Management System" is prominently displayed in white text over the illustration. Below the title is a search bar with the placeholder "Search...", a dropdown menu labeled "Select Genre", and an orange "Search" button. At the bottom of the search bar is another illustration of a castle scene. Navigation links "Home" and "Manage Books" are visible. In the bottom right corner of the page, there is a watermark or message that reads "Activate Windows Go to Settings to activate Windows." The browser's address bar at the top shows the URL "127.0.0.1:5500/index.html".

Home Manage Books

Welcome to Book Inventory Management System

This website is a comprehensive solution for managing your book inventory effectively. It allows users to:

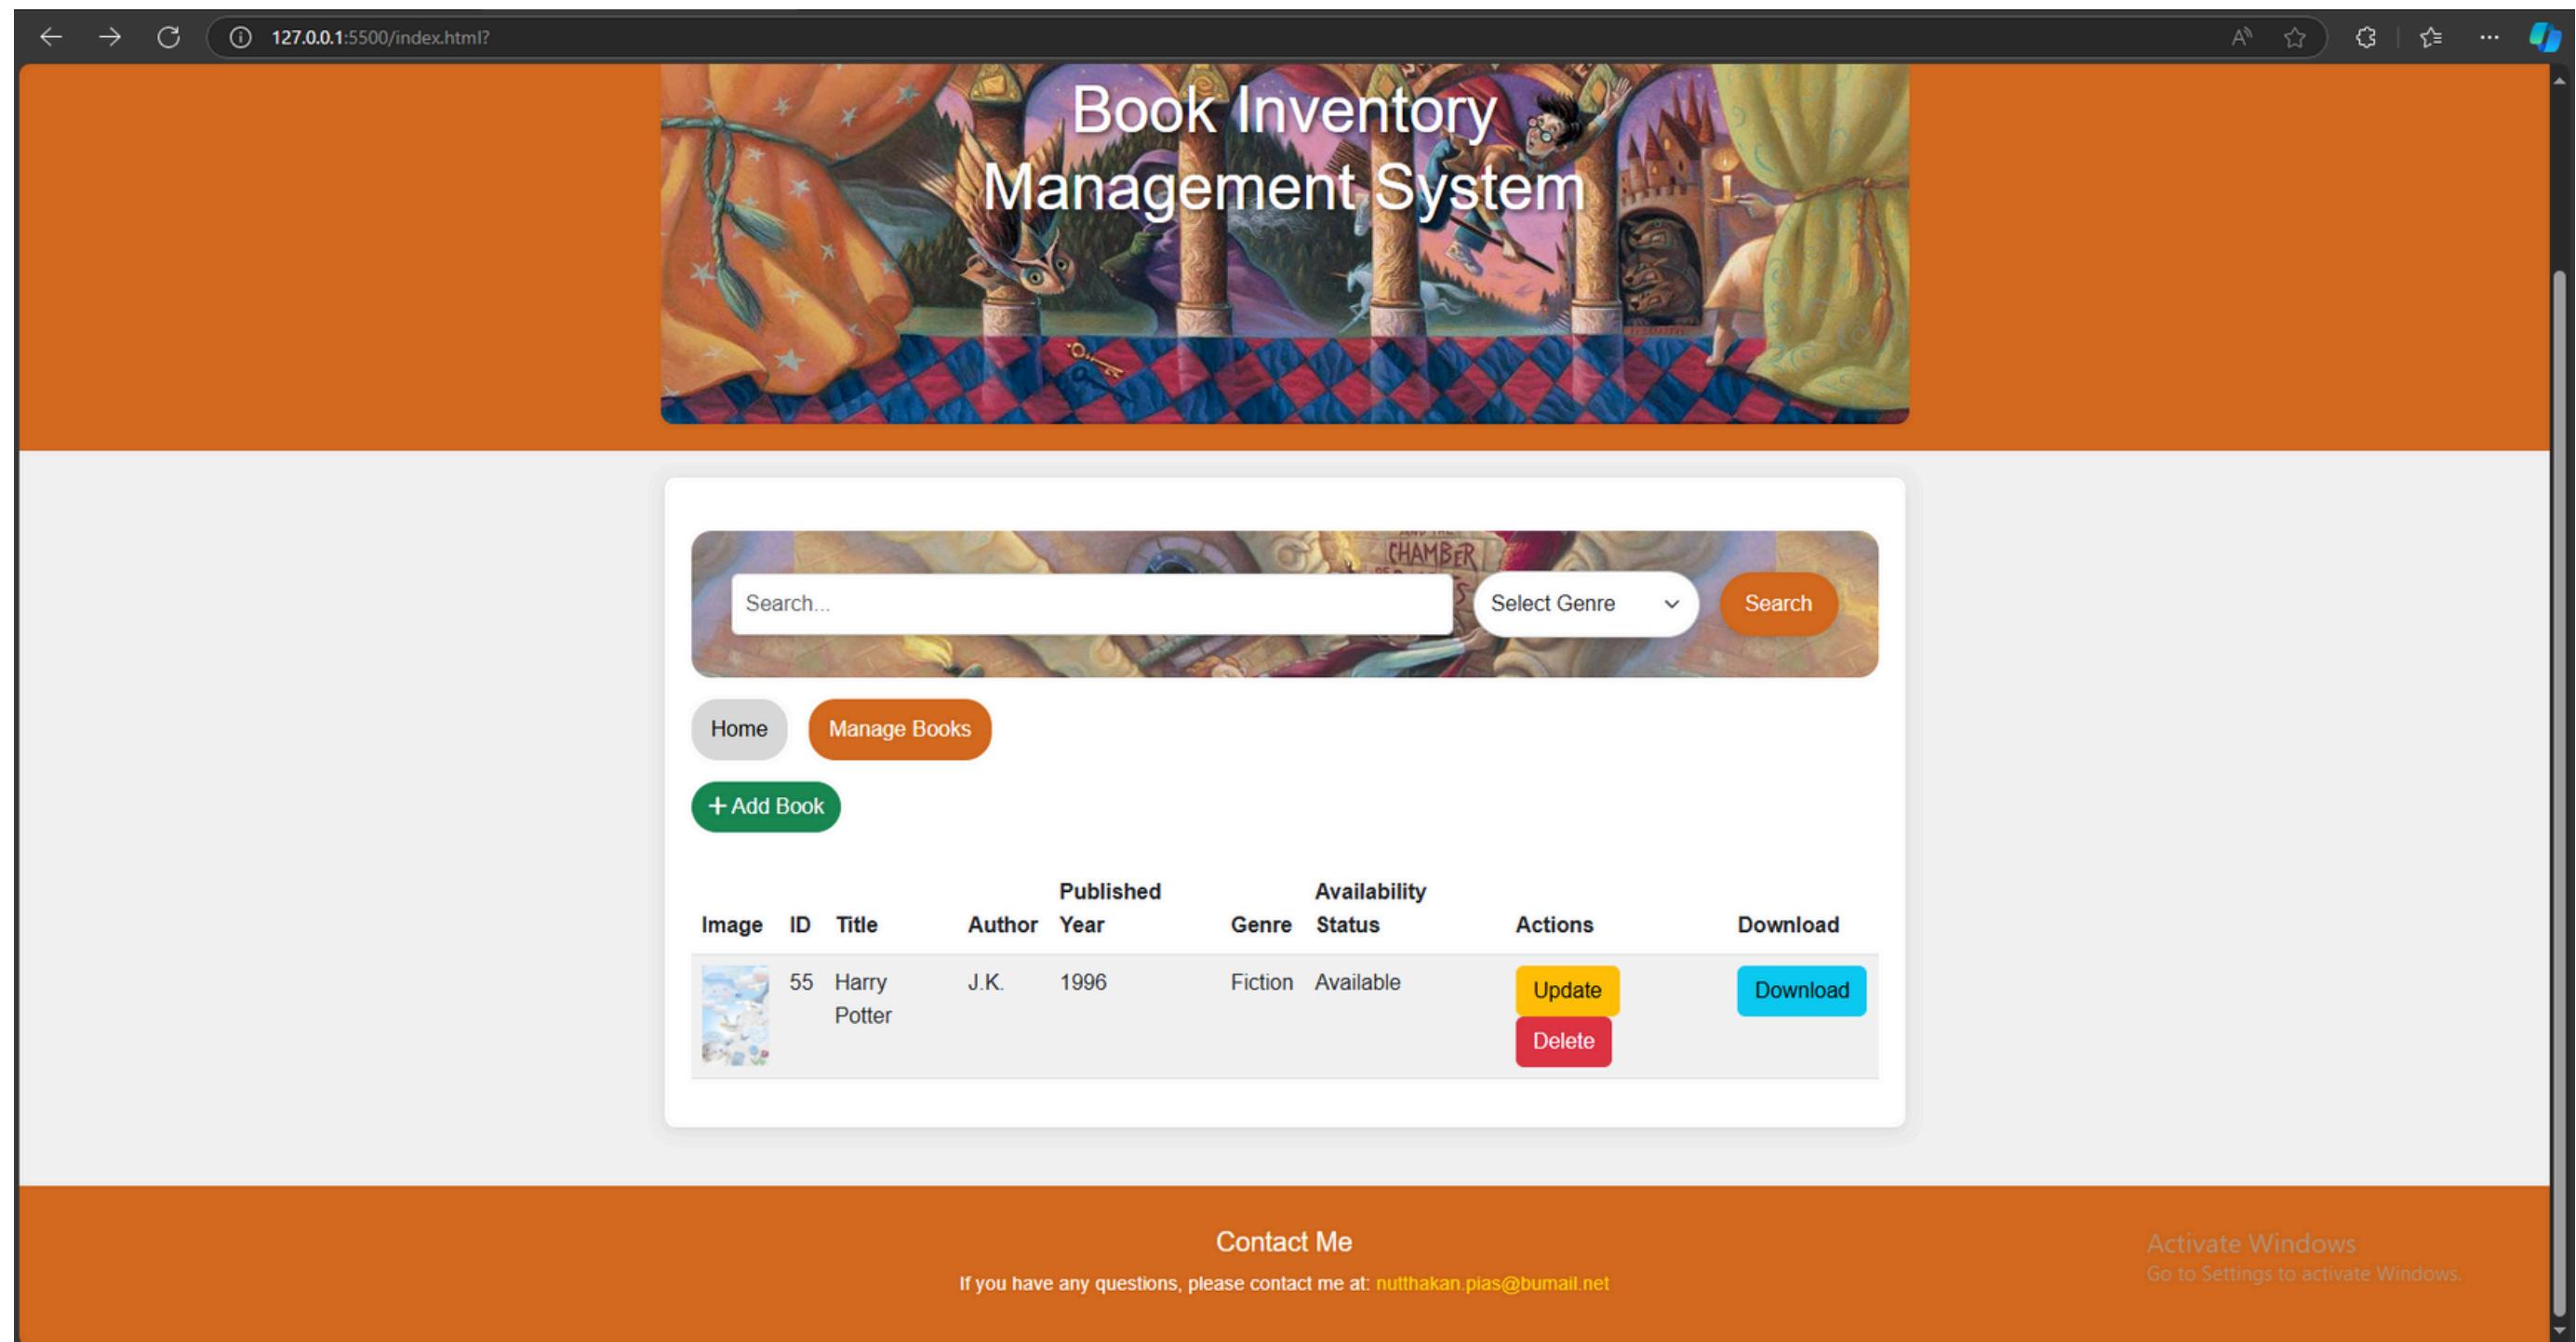

- Add new books: Easily add new books to your collection, including title, author, genre, and availability status.
- Search and filter: Quickly search for books by title or filter by genre to find what you're looking for.
- Manage inventory: Edit, update, and remove books from the inventory with ease.
- View all books: Browse all available books, complete with detailed information and cover images.

Our Book Inventory Management System aims to simplify the process of organizing, tracking, and managing a library or personal book collection.
